## United States Party to A Proposed Alliance to Replace Anglo-Japanese

our Nations in Agreement to  
Settle Pacific Island  
Problems.

### IT IN TREATY FORM

Outgrowth of Recent Conference of  
Hughes, Ballou and Kato; Com-  
ment Rejected by American Dele-  
gates to the Arms Conference.

By Associated Press

WASHINGTON, Dec 7.—The four-  
part agreement being considered by  
United States, Great Britain,  
and France, it was learned from  
official sources today, would be an  
agreement for joint consultation on  
matters affecting the interest of  
the nations in the Pacific Islands.  
The agreement is in process of be-  
reduced to treaty form and if it is  
adopted will be submitted to the Sen-  
ate.

The proposed agreement is designed  
to do away with the Anglo-Japanese  
alliance and proposals have gone to  
various countries for renunciation of that alliance  
if the agreement should be con-  
cluded.

The agreement American officials  
would not deal with fortifications  
in the Pacific nor with questions relat-  
ing to the island of Yap. Neither  
will it deal with questions affecting  
the islands of the Pacific. The agree-  
ment has already been approved in  
principle by the British.

tive proposal for an agreement be-  
tween the United States and other  
countries to replace the Anglo-Japanese  
alliance has been cable to London  
as well as to Tokyo as a result of the  
meeting of the "Big Three".

four at Durban Kato. The British  
kennan said that it might well be  
offered if these proposals should  
be generally accepted they will  
be the effect of terminating the  
Anglo-Japanese alliance for which  
we will be no further use.

WASHINGTON, Dec 7.—The Par-  
ticular committee of the Washington  
conference resuming its sessions to-  
day after a three-day recess adopted  
measures providing for the next  
of China in case of a war in which  
China is not a party. The resolution  
was said to cover part No. 8 of  
the bill of rights. The com-  
mittee also adopted the Root resolu-  
tion in subcommittee con-  
cerning the wireless installations of  
signals on Chinese soil. The ques-  
tion of Japanese troops in Manchuria  
is up for discussion and it was un-  
stood Japanese members made a  
statement to the committee on the  
subject.

**SHAWL IN DEMAND**

Spanish Decoration Popular for Evening Wear.

Emerald Green Favorite Shade With Deep Border of Embroidery in Different Colors

For evening use the Spanish shawl—richly embroidered—is in great demand. There is an art in wearing these big shawls. They may only be made to look quite ordinary or a clever woman can make them supremely elegant by the right twist of a fringed end. And fringe is of first importance in this matter.

A charming evening gown recently designed was lavishly trimmed with soft fringe and over the dress was thrown a magnificent mantua or manilla—or embroidered shawl made of thick crepe. These shawls are indeed very rich colors and the embroidery designs copied from an old Chinese picture.

Emerald green is a favorite color for these shawls, with a deep border of embroidery carried out in different shades of blue, red, orange and dull gray. The shawl may have a white ground, white fringe and colored designs copied from an old Chinese picture.

When Chinese figures are in red and one often finds the tiny faces ap-

**DRESS FOR THE YOUNG GIRL**

Appropriate to the young girl is the dainty belt of crocheted flowers which gathers this dressy little dress of plaited georgette in deep warm red.

**CRAZE FOR BLACK IN DRESS**

Frocks and Wraps Alike Are Made of Dull Surface Stuffs—Crepe de Chine Used.

There is a decided movement in the direction of long skirts—but women are not yet ready for the long skirt which will be worn. If at all on ceremonial occasions only asserts a writer in Good Housekeeping. However, skirts everywhere are a bit longer—decidedly or the downward trend. Chorlton at the moment oddly sponsors a skirt which is longer in the back than in the front.

The craze for black in dress is almost amusing. Wraps and wraps will be made of black crepe de chine or crepe morgan—always the dull surface stuff. Black satin is worn but little a thought we hear it is to be smart this winter. The greatest simplicity prevails in frocks being smart according to its simplicity. Thus do really small women distinguish themselves from the no aux riches.

We see no attempt at color here and there it is red—a red hat or a colored frock under a black cloak. But in general the passion for black is so strong that even the embroidered collars and cuffs which appeared on some of the models of the early season are not eliminated—the garments being made entirely in black. Gray hose is sometimes permitted.

Sleeves if any continue wide—the close fitting being reserved for the close fitting coat. While Paris couturiers abide by a straight and slender silhouette varied effects are achieved in diversity in variations of the sleeve. It is unusual to find a detail of dress which upon itself such a propulsive place and thus attain a position of foremost importance. Throughout this mode the Japanese influence predominates.

**KNICKERS, SKIRT, COAT, CAPE**

Combination Affords Outfit for Both Street and Sport Wear—Fancy to Match the Hat

One smart suit seen recently had knickerbockers, a circular skirt, a hip length belted coat and a three-quarter length circular cape. Cape and skirt might be worn together if desired with sport shirt of soft silk. The coat and skirt when combined make up a conventional street suit and for vigorous sports or long distance hikes the coat or cape with breeches complete a decidedly practical outfit.

Frocks have firmly established themselves as a charming adjunct to the costume and are now being designed to match or blend with the hat worn. The large or reddish browns such as rust, burnt sienna and burnt orange are good looking and they are being vigorously featured. Black makes an attractive trimming for these shades and it is much seen silk can be had in various widths appearing on many wool jersey dresses in reddish tones.

**Bright Bands on Black**  
Bands have been for a time relegated, as a trimming to the cheaper type of dress, but have now been brought back for use on the more exclusive models. Colored leather strips in the shades seen in garments rubbed and emeralds are introduced into dark black dresses. The designs are made in interesting ways so that the effect of this trimming especially in the evening, is very beautiful, though it needs to be designed and carried out with artistic skill.

**Tuth Says He Was Almost a Physical Wreck But Tanlac Overcame His Troubles.**

"I have at last found what I needed, or two bottles of Tanlac have done me more good than all the treatments and medicines I took in 10 years put together," said Charles Ruth, assistant shipping clerk at Brown & Bailey's Folding Box factory, Philadelphia. His home address is 4 rear 926 Neearine street.

"Stomach trouble and rheumatism laid on me so long I was almost a wreck when I started on Tanlac. For 10 years I hadn't known what it was to be in tip-top condition for a single day. Nothing I ate agreed with me. I lost my appetite and just ate enough to keep going. For years I had rheumatism in the shoulders so bad I could hardly lift my hands to my head and suffered so much at night I didn't get enough sleep to do me any good, and in the morning I felt so tired out that it was all I could do to drag myself to work."

"Tanlac took hold of me right from the start and benefited me in every way. Why, I can hardly tell now I ever had rheumatism, and I eat, sleep and work better than I have in years. I'm convinced another bottle or two will entirely rid me of all my trouble, but even if they didn't, the good Tanlac has already done me 100 times what I paid for it. The fact is, wouldn't give one bottle of it for all the other medicines a two-ton truck could haul. It certainly does the work."

Tanlac is sold in Connellsburg by the Connellsburg Drug Co., and by the leading druggists everywhere.—Advertisement

## DANGER IN LACK OF RED CELLS

Weakened Blood a Disability Gude's Pepto-Mangan Overcomes.

Blood becomes feeble when there is a lack of red blood cells. Fatigue always causes the blood to collect waste matter from all parts of the body. In normal health, after a good sleep and a good nourishing meal the blood throws off the poisons and is restored to its normal condition. But when sleep is neglected and the waste matter from fatigue and overwork are not thrown off, the blood becomes weak and poisonous waste matter takes the place of red cells. Faces become pale, physical strength weakens, appetite is poor, and a phase of debility develops.

Gude's Pepto-Mangan taken steadily for a while, makes blood rich and red.

The red cells carry life-giving oxygen to the entire system and drive off the poisonous waste matter. Druggists sell Gude's Pepto-Mangan in liquid or tablet form. Take only the genuine, with the name "Gude's Pepto-Mangan" on the package—Advertisement.

### Bony Tumor Size Of Cocoanut Taken From Mrs. Scoville

Mrs. Charles Reign Scoville, wife of the noted Christian evangelist, underwent an operation at Rochester, Minn., for the removal of a bony tumor at the base of the spine which necessitated also the removal of the coccyx and the vertebra above. The tumor was as large as a cocoanut and was capping the pelvic cavity. A message from the evangelist to Johnstown where the Scoville party last week closed a series of evangelistic meetings, said, "Mrs. Scoville came near sleeping away during the operation and immediately afterward her life was saved by an infusion of blood and the prayers of many pastors and clergymen."

SUSTO is the first Tonic Nutrient ever scientifically tested and approved after complete clinical investigation by nutritional experts at one of America's greatest Medical Colleges—Jefferson Medical College, Philadelphia.

SUSTO is a general nutrient and growth promoter for infants, children and persons menaced by the various forms of malnutrition. Valuable for weak, run-down conditions, anæmia, loss of weight and especially during convalescence.

SUSTO contains in concentrated form the vitamins of yeast, milk, rice, eggs, beef, green vegetables, etc., those essential elements that all nutritional experts agree are absolutely necessary to maintain life, promote growth, preserve bodily health, strength and energy. SUSTO supplies those elements, and if taken regularly each day reinforces the daily food so that people steadily gain in health and strength, eat better, sleep better, feel better and enjoy the vitality which comes only from a properly nourished body, all without the aid of medicine.

Eat a SUSTO tablet with every meal and see how much better you will feel. Ask about SUSTO at the Laughrey Drug Co.'s Store. If you try the treatment for one month at a cost of 10c a day, and you are not in better health every way, weigh more and feel stronger, they will return your money.

WEDNESDAY EVENG., DEC. 7, 1921.

**MORE TIME SHOULD BE TAKEN.**  
The discussion before city council of the proposed Bell Telephone company ordinance reveals quite clearly the fact that municipalities in Pennsylvania have lost practically all their rights as parties to franchise agreements for use of the streets.

Through the medium of rulings and decisions by the Public Service Commission that body has usurped almost all the powers and functions heretofore exercised by boroughs and cities in determining the terms and conditions under which grants shall be made to utility corporations instead of being permitted to negotiate contracts incorporating provisions by which some material advantages shall accrue to the municipalities in exchange for privileges to use the streets, cities and boroughs have in effect been reduced to a sort of dead level of form and substance in grants which the Public Service Commission has arbitrarily ruled must be the same for all parts of the state and uniformly in favor of the service corporations. In brief, the commission has restricted the privileges of municipalities to such bare or franchise agreements virtually prepared at the dictation of the commission.

As a result of these rulings and decisions municipalities are prevented from deriving revenue from a public utility franchise no matter how great may be its value to the privileged corporation. By the dictum of the commission the municipalities are denied the right of private contract and can claim or receive no compensation for the use of the streets over and above the expense of replacement or repair of streets disturbed in the installation of the public utility's distribution system.

Moreover, in the case of pole lines or underground conductors, each utility corporation must provide its own instead of being accorded the privilege of joining with another company in the construction or use of a single system, and that without regard to the wishes, desires or necessities of the municipality in the matter of removing street obstructions. Although the third-class city law empowers cities to compel wires to be placed underground and they are authorized to construct conduit systems, they are prohibited from charging a rental therefor in excess of interest on the investment and cost of maintenance. Even a tax on poles cannot be more than the cost of annual inspection.

The continued confinement of the rights of municipalities have served to fortify the utility corporations in their exclusive field and without recognition of the public other than as the party which must pay the rates the Public Service Commission decides are necessary to yield a certain return upon the investment of the utility corporation.

This being the situation about the only privilege remaining to a municipality is to grant franchises on the terms and conditions and with the provisions the utility may itself prescribe according to the formula of the Public Service Commission. Of course there is the alternative of refusing such a grant but that is merely a defensive right, not a privilege designed to serve the interests of the municipality while also being fair to the utility.

The case of the proposed conduit ordinance for the Bell company illustrates these points. Drafted by the attorneys of the company, in conformity with the rulings and decisions of the Public Service Commission the bill provides everything needful for the company in the enjoyment of the rights to be acquired under it but it gives the city absolutely nothing save the advantages arising from the removal of part of the overhead wires in a restricted section of the city within the next 10 years.

The public appreciates the desire of council to make a start in the removal of aerial wires long recognized as undesirable and a means to successful, expeditious and safe fire fighting in the concession district but the emergency is not so great that undue haste should be taken in disposing of the matter. The city council has definitely deferred final action on the bill until information can be obtained from other cities as to their experience with municipal conduit systems. It is doubtful however if the week allotted is sufficient. If not it should be extended until ample opportunity has been afforded for a full and thorough investigation. Better still, the whole matter should be held over and meantime the telephone company given permission to move the Burinton Tower pole so as to clear that corner of a menace to the safety of the traveling public.

Favorite Fabrics Beautified by the Use of Lace.

Afternoon Frocks Are Shown Plain and Sometimes With Beads—Side Drapes Used.

Crepe, velvets and brocades are specialties of one manufacturer. Several of their black evening gowns are made up with lace, while afternoon frocks are shown plain and sometimes with beads.

Side drapes of lace, which extend from the shoulder to the hem and form tiny sleeves, characterize a black costume of cafton crepe which has inserts of the same lace in straight lines down the front. A navy cafton crepe has side drapes formed of squares of double crepe heavily beaded in red. Lines of the same beads outline the collar, cuffs and shoulders.

Three tiers of white crystal beads in long loops cover the entire skirt of an cafton crepe gown built on straight lines. One tier of loops covers the waist, supplemented with bands or designs in the beads. A black chiffon velvet with long bodice straight in front and gathered at the sides, features a curved hem, longer on the sides than in the back and front.

Brocaded chiffon, two deep turquoise frocks are shown, one with a scalloped hem and an underkirt of the same color in chameuse, and the other with the flower design of the brocade on the lower part of the skirt emphasized by blue beads.

A dress with a separate cape is shown in brown cafton crepe. The bodice is long waisted and plain with a corded belt and long side panels. The cape is of the same color and also plain, except for the corded border of the wide collar and the bottom.

Maybe "Grace" Widow.

Divorced women, or those who are separated from their husbands, are called "grace widows." It is said that this originated from an English rural term, "grace mare," meaning a horse that has been turned out to pasture.

Some claim that it is derived from "grace widow," meaning that the woman is a widow by courtesy of law or agreement but not by the death of her husband.

The expression was first used in this country in 1849 when so many men went to California at the time of the gold strike and left their wives at home.

In England the word is one of disrepute, being applied to former mistresses or unmarried mothers.

Foolish Lawbreakers. "Charley, dear," said young Mrs. Torkin, "isn't it against the law to bet on horse races?" "I believe so."

"That helps to explain what the lecturer at yesterday's club meeting meant when he said that a large percentage of crime was due to intellectual deficiency."

### Tornadoes Work Out for Game Here Saturday With Linwood Club of Pittsburg

The Connellsville Tornadoes are again working out on the gridiron in preparation for what will probably be the last game of the season. The game is to meet the Linwood A C of Pittsburg here Saturday afternoon. The visitors have made quite a reputation this season, being undefeated. A number of the teams listed as victims on the Linwood record are the same ones defeated earlier in the year by the Cokers.

Practice this week is being held in the snow as it is thought this condition may be met Saturday. The Tornadoes have played in every kind of weather except cold and snowy. Even such a handicap as now is not considered as serious as a slippery, muddy field.

With the season nearing an end there is already talk of another eleven next season. An even more successful season should result as this is the first full year put in on the gridiron by the Cokers. Local fans have given the team their support and will be more than willing to aid it in its re-organization next fall.

#### Rivalry Keeps Waynesburg Boys Abreast at State

STATE COLLEGE, Dec. 7.—A spirited bit of friendly rivalry was brought to light in the election of two varsity sport managers at Penn State for this year. "Jimmo" Sayers and "Ken" Bailey were chums at the Waynesburg high school and both entered Penn State in the fall of 1918. Both were asked to join the same fraternity, so they became roommates. Each decided to work for a management, Bailey favoring wrestling while Sayers took to basketball. Basketball season ended first and Sayers was elected, but he couldn't get ahead of his chum whose hard work earned him the wrestling management. Then they were both elected to Farni Nous, upper class honor society, so that again one was checkmated by the other. The rivalry stimulated both to arrange good schedules this fall and now they are looking about for some new way to get the edge on each other. At that, Bailey might claim it, for in his junior year he managed the varsity soccer team due to the absence of a senior candidate for the job.

#### Perryopolis Has Easy Time Winning Over Centerville

Perry township high school basketball team had an easy road to travel in its game December 3 with Centerville, the score being 45-20. The lineup. Perry Twp.—S. Centerville—29. H. Edwards — P. #### Cokers Will Meet Crafton High on Saturday, Jan. 14

The Connellsville high school floor quintet will play Crafton High school, coached by J. P. Rupp, physics director here last season, on January 14. The date was closed yesterday.

The Cokers are planning on handing Rupp's outfit a trimming and the whole squad is anxious to get into the fray.

Connellsville has arranged five games to be played before the first league contest, scheduled for January 10, with Brookwood on the local gymnasium. This will give an opportunity to pick out the weak points of the team and ready them before the first important clash.

There was only one disappointed person at the football supper last evening. "Jim" Swarner thought there should have been two or three more courses.

Fenstermacher put one over on the rest. After everyone had eaten until their belts were uncomfortably tight, he whispered that he had worn a rubber one.

Rube Herwick referee during many past seasons, said a mouthful when he declared he never knew a Connellsville High team with the same standard of sportsmanship in the face of all review. The players always came up smiling.

Prospects for baseball in the high school are bright. R. S. Matthews, newly elected president of the school board told the baseball players last evening that while he attended all games, he didn't understand the technique but would be glad to help if he had knowledge. Although he just didn't do his services as a coach, he made it plain that he would be in the school grounds.

#### HIGH FLOOR TEAM PLAYS GAME SATURDAY

The Connellsville High school basketball team will play the opening game of its season here Saturday night with the Mount Pleasant high outfit. The local quintet has been pushed hard by Coach Vining in the past several days and is rapidly rounding his men into something like a scoring machine.

Mount Pleasant is considered an easy team to start with but often "easy" teams with which seasons are opened are deceptive and frequently turn the tables.

#### Aged in the wood means sweet in the bowl

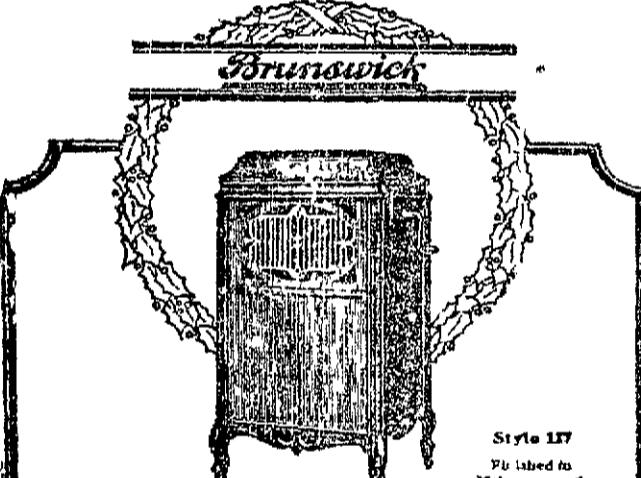

There are "hurry up" ways used in making some pipe tobaccos, but not VELVET. Every leaf of the choice Kentucky Burley used for VELVET is patiently aged two years in wooden hogsheads.

This natural ageing makes VELVET uniformly mild and sweet in your pipe.

#### Make This a Brunswick Christmas

An ideal addition to the Christmas festivities is a Brunswick, for it brings to each member of the household his favorite music in the intimate atmosphere of the home.

And note, too, that there is no reason, when buying a phonograph, to be satisfied with anything short of a Brunswick—for prices and terms on Brunswick are the same as those of other instruments.

#### Exclusive Features

Brunswick plays all makes of records without attachments. Thus means that with a Brunswick in your home you can enjoy all the great artists regardless of the make of records for which they record.

This is accomplished by the Ultone—a part of The Brunswick—not an "attachment." Another exclusive Brunswick feature is the Oval Tone Amplifier or horn made entirely of wood and moulded like a fine old violin. It is responsible for much of the wondrously beautiful Brunswick tone.

**Unemployment  
In State Shows  
Slight Decrease**

By Associated Press.

**HARRISBURG, Dec. 7.—Slight decrease** in the total of unemployed in the state during the last two weeks of November is shown in the reports of state employment offices in the various districts of the state. Commissioner Clifford B. Connelly of the Department of Labor & Industry, in making public reports today announced that weather conditions, the holidays and completion of 1921 work were responsible largely for the little change in the situation. The total unemployed is reported as 269,322, a decrease of 1,108 from previous reports.

The reports indicate an improvement in the building situation with a rush to complete buildings before the new year. The mining situation shows that the mild season has produced some effect. Many railroad men are reported out of work although men are being called back in more sections.

In the bituminous coal districts the situation is not satisfactory, the mines generally operating about 60 per cent.

The Pennsylvania railroad is reported by the Philadelphia office as having recalled a number of men from yard and shop work and the Altoona district stated many men have been recalled during the last few weeks. Erie reported a similar situation.

In the textile lines improvement was announced with the receipt of orders in Altoona, Harrisburg, Philadelphia and Scranton. Scranton reported a slight improvement in the silk industry but a slump in clothing. The shirt, cap and overall factories in Altoona are working full time.

Robert Springer and Dale Whipple, two West Side youths, left Saturday night for Gettysburg to visit John Alter, a student in the college there, but before they got back to their homes had considerable or an experience. They made the trip by automobile.

The weather was fine during the trip to the city of the famous battle but not long after their arrival a heavy snow fell. Whipple was determined to be back for the high school banquet last night, and on Monday morning the pair started on the return journey. At the dinner last night Whipple, who was elected captain of the 1922 team, exhibited some nicely blistered hands sustained by shoveling snow in mountain passes. LOOK FOR THE BIG YELLOW SIGN

128 North Pittsburg Street

Connellsville, Pa.

**At the Theatres****THE SISSON.**

"GARMENTS OF TRUTH," in which Gareth Hughes, an individualistic young star, is seen in an interesting role, is being shown today and tomorrow as the feature attraction at this theatre. The story is of a youthful villager who, finding life rather prosaic, proceeds to enliven things by inventing wonderful yarns for the benefit of his townsmen. As the village lass, he finally causes so much commotion that he is sent away to be treated, and his adventures in the realm of truth, far from being a relief, lead to such complications that the village fathers are at their wits' ends until the budding romance furnishes an entirely unexpected and most welcome answer. Throughout, the action is well sustained, the settings novel and elaborate and the photoplay excellent. Ethel Grannin as the leading lady is an attractive and winsome heroine. Others in the cast include John Stepling, Graham Pettie, Frank Norcross, Harry Lorraine, Walter Perry, Herbert Fortier, Herbert Prior, Eileen Hume, Sylvia Ashton, Erle Mayne and Eddie Conley.

**THE PARAMOUNT.**

"THE RAGE OF PARIS"—Starring Miss Dupont, said to be the most beautiful blonde in America, is an absorbing and colorful study of woman, with the upper strata of the exclusive set of New York, the revelry of Parisian night life and the burning sands of the Arabian desert as a dramatic background. As Joan Coolidge, the girl who renounces her lover for money, at her mother's wish, Miss Dupont is magnificent. Coupled with an undeniably beauty, this new star possesses rare powers of insight into feminine nature, which she gives to the screen with startling dramatic skill. In the scenes in the French salon, attired in the marvelous peacock feather gown, Miss Dupont is gorgeous. Rivaling in beauty and color anything that has been presented on the screen, are the pictures of Parisian life, introduced by Jack Conway, who directed the production. Jack Terrin is an excellent Gordon Talbot, the young mining engineer lover. Ramsey Wallace, with the elusive skill for which his characteristics are noted, portrays Mortimer Handly, the millionaire and libertine husband. The picture will also be shown tomorrow.

**THE ORPHEUM.**

"BIG TOWN STUFF," the feature picture today and tomorrow, presents Eileen Percy, the charming Fox star, in the leading role. In "Big Town Ideas" Miss Percy, who is cast for the part of a pancake turner at a junction restaurant, is beset with one grand all-consuming ambition—to take off her apron, hang it in the kitchen and go to New York to live as a "fine lady." Her dream is realized but not until after she has become involved in a mail delivery at the nearby penitentiary wherein an innocent man is set free, becomes the savior of a whole flock of valuable bonds that have been purloined from their rightful owners, earns a big reward and finally sets out on her journey to the big city in the company of a handsome youth, brushing aside from his new headgear. The story of "Big Town Ideas" is quite the fastest and funniest offering that the local screen has been privileged to show.
